

## Instructor

Rob Gentle - VTrans Safety & Health Instructor (VTTC)

Rob has been teaching safety to Municipal and State AOT agencies for 20 years.

**Does the thought of complying with OSHA's "Control of Hazardous Energy" Standard overwhelm you?**

*It does not have to be that way anymore. We will coach you over the three hurdles needed to finish this race, stay safe and compliant with "Lock-out/Tag-out."*

- Know Your Equipment
- Know Your Isolation Points
- Know Your Procedures

## About

**This class is designed for the "Authorized Employee" at your facility.**

This employee is trained and designated to use "Lock-out/Tag-out" procedures. An "Authorized" and "Affected" employee maybe the same, when the operator's duties include maintaining or servicing machinery or equipment which must be locked out &/or tagged out.

Experience has shown us that the best person/employee to attend this class is not the manager or supervisor.

**REGISTER ONLINE AT:**
